## Business development services

**Is my business a future grower? Where do I start? What do I need? Can I apply for financing? Do I need outsider help or additional workforce?**

**We are here to help you!**

Let's plan a path that supports the development of your business together—there is no need to get lost in the jungle of enterprise service support.

We will look at your business operations in a holistic manner: the goal is to offer the correct service at the correct time.

We will provide your business with an expert, who will find the suitable service for your business with the help of our enterprise service network.

*“The success of a business is not about luck, but rather, the goal-oriented and forward-looking development of business operations”  
(www.suomi.fi)*

Start the development of your business with a development assessment.

The development assessment can be found at <https://oma.yrityssuomi.fi/yrityksen-kehittamiskartoitus>

The assessment outlines the

- current situation and future goals
- development of the number of employees
- business sectors that need development

After this, we will set up a meeting to go through the assessment together with an expert from the development service team.

If necessary, you can also contact us via email and arrange a meeting: [kehittamiskartoitukset.uusimaa@ely-keskus.fi](mailto:kehittamiskartoitukset.uusimaa@ely-keskus.fi)
