Startti Plus 2.0 service can boost your company's sales and marketing!

We know that you want to succeed as an entrepreneur and increase your sales. Uusimaa TE Office, together with the municipalities participating in the local government pilots on employment, supports start-up grant entrepreneurs by offering the free Startti Plus 2.0 service.

The basic service provides you with sparring for boosting your sales and support for improving your marketing skills. You also receive a development plan which focuses on sales and marketing development.

In addition, you can also arrange 1–4 follow-up meetings in which your sales and marketing skills are further strengthened and you are supported in carrying out your development plan.

The service is available during the business start-up phase, can only be used once, and is offered to you free of charge.

Participation in the Start-Up Plus service is recommended within 3-6 months of starting a business. The service is provided by our contract partners, from whom you can choose the one that suits you best.

Sign up by filling out the form on our website:
